Latest turbo and gearbox range additions from Ivor Searle

Turbos added to range for Jaguar, Land Rover and Mercedes, Ford and Fiat catered for with new-to-range gearboxes

Mike Ruff, GW editor July 7, 2022 Comments Closed 0 likes

Remanufactured turbos for a number of Jaguar, Land Rover and Mercedes applications, as well as gearboxes for the Fiat 500, Ford Ka, Ford Focus EcoBoost and Ford Transit EcoBlue have been added to Ivor Searle's extensive range.

As a remanufacturer, Ivor Searle is constantly adding to its all makes programme of engines, gearboxes and turbochargers for cars and LCVs which covers over 90 per cent of the UK's vehicle parc.

Costing up to 40 per cent less than OE, the new turbo applications include the unit for the 2.0 litre diesel engine found in the Jaguar XE, XF and F-PACE, as well as the Land Rover Discovery and Range Rover Evoque and Velar models.

For Mercedes, Ivor Searle has added the turbo for the 2.1 diesel engine found in A Class, B Class, CLA Class and GLA Class models produced from 2011.

Ivor Searle's latest manual gearbox additions include the five-speed unit for 1.2 petrol derivatives of the Ford Ka and Fiat 500.

The six-speed Getrag transmission for Ford Focus 1.0 petrol EcoBoost models also joins the range, alongside the six-speed unit for 2.0 litre diesel Ford Transit EcoBlue light vans manufactured from mid-2016 onwards.

For peace of mind, all Ivor Searle gearboxes are covered by a 12-month unlimited mileage parts and labour warranty, while a two-year warranty covers all turbochargers.

Ivor Searle also offers free next day UK mainland delivery for stock items ordered before 3.30pm.
