Ivor Searle increases turbocharger range for popular SUVs

Remanufactured units offered for Hyundai Tucson and Kia Sportage 1.6 petrol models

Adam Tudor-Lane November 21, 2024 Comments Closed 0 likes

Ivor Searle has expanded its turbocharger range with units for the popular 1.6-litre petrol versions of the Hyundai Tucson and Kia Sportage SUVs.

These remanufactured turbos offer a cost-effective solution for garages and car owners looking to repair these vehicles. Ivor Searle's turbos are typically priced up to 40% less than original equipment (OE) parts.

"Our commitment is to provide our customers with a comprehensive range of remanufactured parts that cover a large portion of the UK's car parc," said a spokesperson for Ivor Searle. "These new turbos cater to the growing demand for repairs on these popular SUVs."

All Ivor Searle turbos come with a two-year unlimited mileage warranty for parts and labor, offering peace of mind to customers. They also offer free next-day delivery for orders placed before 3:30 PM on weekdays.

For more information on these new turbochargers or their extensive range of remanufactured parts, visit Ivor Searle's website [by clicking here](#) or contact their sales team.
