

IVOR SEARLE EXPANDS MANUAL GEARBOX RANGE

K

eeeping on top of the latest automotive trends and technology

has become essential for independent workshops looking to sustain and grow their business in today's competitive servicing, maintenance and repair market. With this in mind, leading remanufacturer Ivor Searle constantly

monitors demand for specific transmission types and regularly introduces new units to ensure its extensive range is always up-to-date.

Costing up to 40% less than OE, Ivor Searle's all makes range of remanufactured gearboxes for cars and light commercial vehicles aims to reflect the latest trends in the UK's vehicle parc, helping workshops to compete without compromising

on quality, warranty protection or customer service.

While it is more economical to source a remanufactured gearbox, quality is key when choosing a supplier, as the process of remanufacturing a transmission back to OEM standard is complex and demands significant investment, in-depth technical expertise and rigorous inspection procedures.

Latest additions to the Ivor Searle remanufactured range include gearboxes from Fiat, Ford, Land Rover, Renault, Vauxhall and Volkswagen.

For peace of mind, all Ivor Searle gearboxes are covered by a 12-month unlimited mileage parts and labour warranty. In addition, Ivor Searle holds comprehensive stocks to ensure first class

customer service and minimum vehicle downtime and also provides free next day UK mainland delivery for stock items ordered before 3.30pm. Ivor Searle has an extensive distributor network across Scotland, so no matter where you are, you're never far away from a quality Ivor Searle product.
