Ivor Searle kick-starts 2023 with 34 new turbo applications

All Ivor Searle turbochargers covered by two years unlimited mileage, parts and labour warranty

Mike Ruff, GW editor | January 23, 2023 | Comments Closed | 0 likes

Remanufacturer Ivor Searle has kick-started 2023 with the addition of 34 new applications to its extensive range of turbos for cars and LCVs.

Remanufactured units for a number of BMW, Hyundai, Kia and Mini diesel models join the range, along with turbochargers for Alfa Romeo, Fiat, Ford, Jeep and Vauxhall vehicles.

Ivor Searle is constantly adding to its all makes programme of engines, gearboxes and turbochargers which covers over 90 per cent of the UK's car and LCV parc.

Costing up to 40 per cent less than OE, the new turbo applications include the units for the 2.0 litre diesel engine found in BMW 1, 2, 3, 4 and 5 Series models built from 2010, as well as the X1, X3 and X4 SUVs.

For Hyundai, Ivor Searle has added the turbo for the 2.0 litre diesel powering the iX35 and Santa Fe SUVs produced from 2009, which is also used in the Kia Sportage and Sorento.

Further additions include a number of Mini N47 2.0 litre diesel applications, plus units for Fiat 1.6 litre diesel Bravo, Doblo and Tipo models produced from 2014.

Ivor Searle also offers free next day UK mainland delivery for stock items ordered before 3.30pm.
