

LEADING THE WAY WITH REMANUFACTURED PRODUCTS

W

With over 70 years of unrivalled expertise, Ivor Searle is one of the UK's leading

producers of remanufactured automotive products.

The company offers an extensive all makes programme of including engines, cylinder heads, gearboxes and turbochargers for petrol and diesel cars and light commercial vehicles.

To guarantee peace of mind, all Ivor Searle engines, cylinder heads and gearboxes are covered by a transferable 12-month unlimited mileage parts and labour warranty, while a two-year warranty covers all

turbochargers. All products are also supplied with pre-installation guidelines for the workshop and model-specific instructions where required.

Remanufactured products provide workshops operating in today's price sensitive market with a cost-effective alternative to sourcing a new component. However, although it's more economical to buy a remanufactured product, quality is a key factor as the complex process of remanufacturing an engine or component back to OEM requires significant technical expertise and rigorous inspection procedures.

To achieve this, all

remanufactured Ivor Searle engines are built to exceed the BS AU257:2002 Code of Practice which sets out the difference between a high quality remanufactured engine to an inferior reconditioned, refurbished, or rebuilt engine. Brand new replacement parts that are sourced for their reliability and durability are used in the remanufacturing process. Furthermore, Ivor Searle employs the same quality-focussed ethos from its engine remanufacturing expertise when it comes to cylinder heads, gearboxes and turbochargers, all of which are remanufactured under a quality management system certified to

ISO 9001:2015.

As well as constantly adding new applications to its extensive range, Ivor Searle also holds comprehensive stocks across all products to ensure first class customer service and minimum vehicle downtime. Free next day UK mainland delivery is also provided for stock items ordered before 3.30pm. Ivor Searle has an extensive distributor network across Scotland, so no matter where you are, you're never far away from a quality Ivor Searle product.
