Ivor Searle expands turbo range with Mitsubishi and Fiat applications

Remanufactured units offer cost-effective solution for popular models

Adam Tudor-Lane | October 17, 2024 | Comments Closed | 0 likes

Engine remanufacturer Ivor Searle has expanded its popular turbocharger range to include units compatible with several Mitsubishi and Fiat models.

The new additions cater to vehicles powered by the same 2.4-litre, four-cylinder common rail diesel engine produced from 2015 onwards. This includes the Mitsubishi L200 and Triton pickup trucks, as well as the Pajero SUV.

For Fiat, the new turbocharger fits the Fullback pickup, which shares the same powertrain.

Ivor Searle's remanufactured turbochargers offer a cost-effective alternative to original equipment (OE) parts, potentially saving customers up to 40%. Furthermore, all Ivor Searle turbos come with a two-year unlimited mileage warranty for parts and labour, providing peace of mind for owners.

For added convenience, Ivor Searle offers free next-day mainland UK delivery for stock items ordered before 3.30 pm.

Those interested in learning more about the new turbochargers or any of Ivor Searle's remanufactured parts can contact their sales team on 01353 720531 or visit the company's [website by clicking here](#).
