Ivor Searle adds Ford C-Max application to gearbox range

Six-speed unit covers 1.5-litre Duratorq TDCI diesel versions of C-Max and Grand C-Max

Mike Ruff, GW editor September 8, 2022 Comments Closed 0 likes

UK-based remanufacturer, Ivor Searle, has added the manual transmission for the popular second generation Ford C-Max compact MPV to its all-makes range of gearboxes for cars and LCVs.

The six-speed unit covers 1.5-litre Duratorq TDCI diesel versions of the C-Max and Grand C-Max equipped with Stop/Start technology assembled by Ford in Spain and Germany from April 2015 to February 2018.

Ivor Searle's remanufactured gearbox programme covers around 90% of the UK's vehicle parc and cost up to 40 per cent less than OE.

For peace of mind, all Ivor Searle gearboxes are covered by a 12-month unlimited mileage parts and labour warranty.

Ivor Searle also offers free next day UK mainland delivery for stock items ordered before 3.30pm.
