Ivor Searle adds turbo for BMW 1.6 petrol engine to remanufactured range

New unit covers popular 1 and 3 Series models and offers cost savings

Adam Lane May 1, 2025 Comments Closed 0 likes

Ivor Searle has expanded its range of remanufactured turbochargers with the addition of a unit for the BMW N13B16 1.6 litre four-cylinder petrol engine.

This new turbocharger covers second-generation 1 Series (F20) 114i, 116i, 118i, and 120i models produced from 2011 onwards, as well as sixth-generation 3 Series (F30) 316i and 320i models built from the same year.

The remanufactured turbocharger is offered at a cost of up to 40% less than the original equipment (OE) part. Ivor Searle's extensive range of quality remanufactured units now covers over 90% of the UK's car and light commercial vehicle parc.

For customer assurance, all Ivor Searle turbochargers are backed by a two-year unlimited mileage, parts, and labour warranty. The company also provides free next-day UK mainland delivery for stock items ordered before 3:30 pm.

Further information can be obtained by contacting the Ivor Searle sales team on 01353 720531 or by [clicking here](#).

The newly added turbocharger is applicable to the following BMW models with the 1.6 petrol engine from 2011 onwards: 114i, 116i, 118i, 120i, 316i, and 320i.
