

PROFIT FROM REMANUFACTURED PRODUCTS

Leading remanufacturer of engines and automotive components, Ivor Searle, is encouraging workshops to consider remanufactured products when they are sourcing major replacement parts.

C

osting up to 40% less than OE, Ivor Searle's remanufactured engines, cylinder heads, gearboxes and turbochargers enable independent garages

to profitably compete in today's price-sensitive market without compromising on quality, warranty protection or customer service.

While it is more economical to source a remanufactured product, it's important to remember that quality is an important factor when choosing a supplier, as the process of remanufacturing an engine or component back to OEM standard is complex and demands significant investment, in-depth technical expertise and rigorous inspection procedures.

To deliver this, all remanufactured Ivor Searle engines are built to exceed the BS AU257:2002 Code of Practice which sets out the difference between a high quality remanufactured engine, compared to an inferior reconditioned, refurbished, or rebuilt engine. Only brand-new replacement parts sourced for their reliability and durability are used in the remanufacturing process. Furthermore, Ivor Searle also applies the same quality-focussed approach from over 70 years of engine remanufacturing when it comes to the company's extensive range of cylinder heads, gearboxes and turbochargers, all of which are remanufactured under a quality management system certified to ISO 9001:2015.

The company offers an all makes programme of remanufactured products for petrol and diesel cars and light commercial vehicles, with new applications being added all the time. For peace of mind, all Ivor Searle engines, cylinder heads, gearboxes and professionally-cleaned DPF's are covered by a 12-month unlimited mileage parts and labour warranty, while a two-year warranty covers all turbochargers. Ivor Searle holds comprehensive stocks across all products to ensure first class customer service and minimum vehicle downtime and provides free next day UK mainland delivery is also provided for stock items ordered before 3.30pm.

Ivor Searle has an extensive distributor network across Scotland, so no matter where you are, you're never far away from a quality Ivor Searle product.
